WORK EXPERIENCE

Front-End Developer
Glory Autotech LLP

01/2022 - Present   *Surat,India*

Achievements/Tasks

- Implemented **E-verification** and document **hashing** using **third-party APIs**, **Signzy** and **Pinata**. These were used to verify authenticity and securely store documents via hashing.
- Integrated **payment gateways** such as **RazorPay** and **Open Money** into websites for seamless payment processing.
- Creating and maintaining Angular applications that consume **RESTful APIs**.
- Improved website performance by **300%** through file size reduction, minimizing **HTTP requests**, and server response time improvement.
- Achieved a **75%** reduction in page load time using image compression and **lazy loading** techniques.
- **Testing** and **debugging** web applications, including identifying and fixing issues with **data binding**, **dependency injection**, and **routing**.
- Attending meetings with clients or project managers to discuss project requirements, provide updates on progress, and identify any issues or concerns.
- Collaborating with designers to turn wireframes and mockups into functional web pages.
- Collaborating with other developers and team members, including backend developers and project managers.

SKILLS

HTML   CSS   JavaScript   Angular

TypeScript   Git & Github   RxJs   Bootstrap

CSS pre-processors

PROJECTS

Polynomial.ai (03/2022 - 09/2022)
- As an AI project my main role was to translate the UI to UX and implementing the layout, navigation, and visual elements of the application using Front-End Technologies.

HR Buddy (09/2022 - 12/2022)
- This is our in-house project, similar to HackerRank where we take tests of interns and freshers for training and interview purposes, and also added features such as day-to-day attendance tracking for employees.

Authoritti (11/2022 - 01/2023)
- This is basically a emotion predictor.There are set of question after answering them based on some score a emotion is defined.

EQUIDEI (01/2023 - Present)
- EquiDEI is a DeFi platform that enables manufacturing SMEs to get easy access to finance by tokenising their assets with the help of blockchain.
